NEW COURSE PROPOSALS – DISCUSSION OF NEED

The following new course proposals will be discussed at this meeting with the authors of the proposals to determine the need of adding the course to our curriculum. The course outlines will not be reviewed at this meeting.

Subject & Number	Title	Rationale for New Course Proposal	Author	Effective
ESYST-231	Generative AI in Python	Existing populations in NETECH, CYBR and SysAdmin will make use practical AI that is localized for a number of reasons, chiefly: **Security** - no publicly accessible information in conformance with ISO, HIPPA, FERPA standards, trade-secret agreements, and data chain of custody. **Increase efficacy in their domains** - Students will enter the work force with proficiency in the areas of Artificial Intelligence and AI integration that assist in all areas of generalized IT, automation, security. **Data-driven decision making** - General data analysis that will make use of multiple I/O pipelines matching the scale commonly found in modern enterprise environments. **Industry Relevance** - IT suites require this knowledge in an area that is practical, non-theoretical and prepares students to be ahead of current job market trends, making these skills highly desirable and transferable.	J. Hunt	TBD

NEW COURSE PROPOSALS – FINAL READ

The need for the following new course proposals were approved at a previous Curriculum Committee meeting, or through the Program Viability process. These course outlines were reviewed through a technical review process and will now be reviewed by curriculum committee.

Subject & Number	Title	Description of Action	Author	Effective

TOP TO CIP CODE TRANSITION – CONSENT CALENDAR

The following items are being approved as technical changes and will not be reviewed during this committee meeting. The authors of the following items are not required to attend this meeting.

Courses & Programs	Title	Description of Action
Multiple – list provided at end of agenda	Multiple – list provided at end of agenda	As part of statewide curriculum modernization and Common Course Numbering implementation, the California Community Colleges will replace Taxonomy of Programs (TOP) codes with Classification of Instructional Programs (CIP) codes for all programs and courses. This transition ensures stronger data integrity, streamlined reporting, and improved coordination across systems.

NEW NONCREDIT COURSE PROPOSALS DISCUSSION OF NEED – CONSENT CALENDAR

The following Noncredit Course Discussions of Need were reviewed and approved at the November 3, 2026 Noncredit Curriculum Committee meeting.

Subject & Number	Title	Rationale for New Course Proposal	Author	Effective
NC.ESL-090 NC.ESL-091 NC.ESL-096	Intermediate College Reading & Writing Accent Reduction College Listening and Speaking	Mirrored versions of credit courses.	H. Maclean	TBD
NC.VOC-060 NC.VOC-061	AI Fundamentals and Ethics for the Workplace AI Applications and Productivity for the Workplace	These courses are designed to meet the need for artificial intelligence (AI) skills in the workplace. Our current noncredit AI certificate, Generative AI for Academic and Career Success (NC.BCSK 003 and 004), focuses on AI for academic research and study. These two courses extend that work to employment. The courses will focus on several key aspects: Understanding AI in the Workplace - Students will gain an understanding of what AI is, how it works, which AI tools are available at work and at what cost, and where AI is and is not appropriate. Ethical and Responsible Use - The courses will cover accuracy, bias, hallucinations, privacy and security, and the rules for using AI on the job, including what information should never be shared with an AI tool. Practical Tools for Productivity - Students will use AI for workplace tasks such as email, calendars, spreadsheets, research, writing, graphics, and content creation, and will build simple workflows and automations. Applications - Students will complete a working product such as a web page, a presentation, or a small application using AI tools. Incorporating this certificate program into our curriculum will provide students with AI skills that employers across industries now expect and will give students who complete the academic AI certificate a workforce pathway to continue into.	K. Jacoby G. Rieck	TBD

Subject & Number	Title	Rationale for New Course Proposal	Author	Effective
NC.VOC-062 NC.VOC-063	Adult Workforce Reentry: AI Basics and Digital Safety Adult Workforce Reentry: AI for Daily Life and Work	These courses are designed to serve adults who are returning to the workforce after retirement, caregiving, or a long absence, and students with disabilities. The courses will focus on several key technology aspects: AI Basics - Students will gain an understanding of what AI is, how it works, which AI tools are available, and why AI answers can be wrong; Digital Safety - The first course will cover protecting passwords, credentials, and personal information, what not to share with an AI tool, and recognizing AI-enabled scams, fakes, and voice clones; AI for Daily Life - The second course will cover using an AI assistant for everyday tasks, health benefits and insurance paperwork, budgets and money questions, health and wellness questions, and finding lost photos, files, and messages; AI for Work - Students will learn how hiring software screens a resume, how to prepare a resume and application with AI as an editor, how to prepare for an interview, and which AI use is appropriate in the workplace. Incorporating this certificate program into our curriculum will give returning adults and students with disabilities an accessible entry point to AI and a pathway to the Artificial Intelligence (AI) Skills for the Workplace certificate	K. Jacoby G. Rieck	TBD
NC.OAD-112	Advanced Watercolor for Older Adults	For the last three years, we have been offering NC.OAD 012: Watercolor for Older Adults and NC.OAD 013 Drawing for Older Adults at the Newhall, Canyon Country, and Valencia Community Centers. After a slow start, word has gotten out and the courses consistently have high enrollments. Many students in our older adult classes repeat these classes several times. In the last year, we have received dozens of requests from students and offsite partners for advanced courses. For now, we would like to create an advanced watercolor course and see how it goes. If enrollment is high, then we will return to develop and advanced drawing class as well.	M. McCaffrey G. Rieck	TBD
