

Hear Text Read Aloud on Your MAC Chrome Browser

You can hear full pages read aloud with Chrome's built-in screen reader or hear parts of a page, including specific words, read aloud with Select-to-speak.

Listen to all text:

1. At the bottom right, select the time. Or press Alt + Shift + s.
2. Select Settings .
3. At the bottom, select Advanced.
4. In the "Accessibility" section, select Manage accessibility features.
5. Under "Text-to-Speech," turn on Enable ChromeVox (spoken feedback).
6. Tip: You can turn Chromevox on or off from any page by pressing Ctrl + Alt + z. Learn more about how to use the built-in screen reader.

Listen to part of a page:

To select specific text on a page to be read to you, turn on Select-to-speak.

Step 1: Turn on Select-to-speak

1. At the bottom right, select the time. Or press Alt + Shift + s.
2. Select Settings .
3. At the bottom, select Advanced.
4. In the "Accessibility" section, select Manage accessibility features.
5. Under "Text-to-Speech," turn on Enable select-to-speak.

Tip: [Learn how to change the language, voice, and volume for text read aloud.](#)

Step 2: Select and hear text

Important: Depending on your keyboard, you can press the Search key or the Launcher key for some shortcuts. Both keys work the same.

1. To select what text you'd like to hear:
 - Press and hold the Search key and select a line of text.
 - Press and hold the Search key and drag the pointer over an area of the screen.
 - Highlight the text and press the Search key + s.

- At the bottom right, near the time, select Select-to-speak . Then select a line of text or drag the pointer over an area of the screen.
 - On a touchscreen: At the bottom right, near the time, tap Select-to-speak . Then tap a line of text or drag your finger over an area of the screen.
2. Your Chromebook will read the section aloud and each word will be highlighted.
 3. To stop Select-to-speak while it's reading, press Ctrl or the Search key . You can also select Stop .

Highlight or shade background text

If you are using Select-to-speak, each word will be highlighted as it's spoken. You can turn off highlighting, change the color of the highlighted words, or shade the screen behind selected text.

1. At the bottom right, select the time. Or press Alt + Shift + s.
2. Select Settings .
3. At the bottom, select Advanced.
4. In the "Accessibility" section, select Manage accessibility features.
5. Under "Text-to-Speech," turn on "Select-to-speak."
6. Select Open select-to-speak settings. Under "Highlighting," you can:
 - Turn on Highlight each word as it is spoken.
 - Select a color next to "Color for word highlights." Tip: To get the strongest contrast, we recommend using green or pink, especially if you're using high contrast mode.
 - Turn on Shade background content: This allows you to shade the whole screen, except for the text being spoken.

Disable Navigation Features

1. At the bottom right, select the time. Or press Alt + Shift + s.
2. Select Settings .
3. At the bottom, select Advanced.
4. Under "Accessibility," select Manage accessibility features.
5. Under "Text-to-Speech," select Open select to speech settings.
6. Under "Highlighting," turn off Enable navigation controls.
