4020.1 The programs and curricula of the Santa Clarita Community College District shall be of high quality, relevant to community and student needs, and evaluated regularly to ensure quality and currency. To that end, the CEO shall establish procedures for the development and review of all curricular offerings, including their establishment, modification, or discontinuance.

4020.2 These procedures shall include:
(a) appropriate involvement of the faculty and Academic Senate in all processes;
(b) regular review and justification of programs and course descriptions;
(c) opportunities for training for persons involved in aspects of curriculum development; and
(d) consideration of job market and other related information for vocational and occupational programs.

4020.3 All new programs and program deletions shall be approved by the Board of Trustees.

4020.4 All new programs shall be submitted to the California Community Colleges Chancellor’s Office for approval as required.

4020.5 Individual degree-applicable credit courses offered as part of a permitted educational program shall be approved by the Board of Trustees. Non-degree-applicable credit and degree-applicable courses that are not part of an existing approved program must satisfy the conditions authorized by Title 5 regulations and shall be approved by the Board of Trustees.

4020.6 Consistent with federal regulations applicable to federal financial aid eligibility, the District has designated each class hour as a “credit hour” and established the definition of “credit hour.” The class hour is the basic unit of attendance for computing the number of full-time equivalent students (FTES) for apportionment.

Established procedures, pursuant to Title 5 and the California Community College Chancellor’s Office Student Attendance Accounting Manual, define a “credit hour” as a clock hour of a total of 60 minutes composed of a segment
of no less than 50 minutes of scheduled contact for instruction and/or examination and a segment of 10 minutes for passing time between classes or a break.

District procedures assure that curriculum complies with the definition of “credit hour.” It uses a clock-to-credit hour conversion formula to determine whether a credit hour program is eligible for federal financial aid. The conversion formula is used to ensure that a “credit hour” program has an appropriate minimum number of clock hours of instruction for each hour unit of credit it claims.

A “credit hour” at College of the Canyons represents the amount of work necessary to achieve intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

(a) One “credit hour” (50 minutes) of classroom or direct faculty instruction and a minimum of two “credit hours” (100 minutes) of out-of-class student work each week for semester-length (e.g., sixteen weeks) courses for one semester hour unit of credit, or the equivalent amount of work over a different amount of time; or

(b) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by College of the Canyons, including three “credit hours” (150 minutes) of laboratory work, studio work, and other activities leading to the award of “credit hours.”

(c) A “credit hour” is assumed to be a 50-minute period. In courses, such as those offered online, in which seat time does not apply, a “credit hour” may be measured by an equivalent amount of work, as demonstrated by student achievement.
