This item was moved forward on the agenda. Dr. Van Hook noted that two years ago, there was a big movement headed by Dr. George Boggs, CEO, AACC for colleges to pass resolutions in support of sustainable development. We thought about doing so at that time, but decided to wait until we were more organized. In the meantime, Mr. Schrage had produced a brochure (she distributed the updated version to everyone), our sustainable development committee put together their first conference (held in January in the PAC), and we began working on related curriculum expansion. She noted she is thrilled the Board is considering supporting this resolution now, because with the emphasis on “going green,” the attention to energy conservation and the fact that much of the stimulus funding is tied to green efforts, this is a good time to bring this resolution forward. She noted our commitment to sustainable development is not a single pronged endeavor on campus, but happens in a variety of ways.
