

THE CANYON COUNTRY CAMPUS FALL 2018 HIGHLIGHTS

SCIENCE CENTER CONSTRUCTION PROGRESS, AUGUST 2018

The Canyon Country Campus (CCC) is a vital part of College of the Canyons, providing comprehensive instructional pathways and student services to serve our community. CCC is primed to grow, with planning and construction scheduled for multiple new permanent facilities to transform the campus.

Fall 2018 semester activities and highlights include:

- **Construction Progress** for the long-awaited 55,000 sq. ft. Science Center. This state-of-the-art new facility will house in-demand science laboratory and classroom space for the campus, along with lecture, computer labs, meeting space, and offices. The project is expected to conclude in late-Fall 2019.
- **Celebrating the 12th Fall Semester** at the Canyon Country Campus, which opened in August 2007. The 17/18 year included substantial celebration of the campus' tenth anniversary, as well as publication of a comprehensive history available at canyons.edu/ccc10.
- **Debuting** new community and student-centered events, such as the "CCC Patio Talks" to highlight the expertise of faculty and staff who teach or work at CCC.
- **Moving forward** on projects from the Educational & Facilities Master Plan, including the Science Center, an Arts Center, and planning for a future Student Commons and Lecture facility. These projects will expand academic pathways and grow the campus. As a campus, CCC is larger than several CA community colleges.
- **Offering approximately 280 class sections** this semester, consisting of more than 9,000 seats in 42 different disciplines. Nearly 120 of these class sections are offered in evening, short-term, hybrid, or weekend formats.
- **Providing excellent instruction, with 170 faculty teaching at CCC this semester**, including approximately 95 who will teach exclusively at CCC during this period.
- **Emphasizing student pathways and supportive student services** for the campus with customized and accelerated educational plans, weekend and evening degree pathways, increased staffing for student services offices. Future schedules will feature increased accelerated options for the campus.
- **Marking the milestone of more than 7,600 classes offered** since 2007, as well as nearly 59,000 students who have earned course credit on campus since that time.
- **Collaboration and planning continues to make campus growth possible! Learn more by visiting www.canyons.edu/ccc or contact us at (661) 362-3802.**
