Welcome!

This is going to be an exciting week! To start, the campers will be working in a real live welding & metal fabrication laboratory using many of today’s welding processes (including Virtual Welding)! They will cut, drill, and shape metal into various projects using equipment such as drill presses, metal lathes, horizontal mills, plasma cutters and more! Assigned metal projects will be completed using acquired skills in conjunction with specified welding & cutting and fabrication equipment. Campers will also learn about applying basic entrepreneurship principles to understand how a single product idea becomes a business. Campers will also tour local cutting manufacturing facilities and learn about the many lucrative career opportunities in Manufacturing right here in the Santa Clarita Valley.

Some important information you need to know before camp:

1. Please make sure you have filled out your emergency contact form and liability waiver prior to camp and turned it in. If under 18, the parent/guardian will need to fill these out. If you do not have these completed forms you will be unable to participate.

2. Campers will be going on two field trips. Both will be on Wednesday, July 22, 2015. Make sure you are on-time. The vans will leave promptly at 9:15 am. If the campers are not here on time, the vans will leave without them. We will be visiting:

   **Classic Wire Cut**
   28210 Constellation Rd
   Valencia, CA 91355

   And

   **RAH Industries**
   24800 Avenue Rockefeller
   Valencia, California 91355

3. Dress code – Campers **MUST** wear work boots that do not have nylon material (nylon is flammable). Campers **MUST** also wear long pants for protection. They will be working with real welding equipment. This is for their protection. All additional safety materials will be provided.

4. Drop off & Pick up – If campers will be dropped off and/or picked up please do so at lot 13 near the access road just behind Towsley Hall. If they will be driving themselves, please park in lot 13. A parking permit will be provided to on the first day of class. Please let the instructor know that you need one. Campers will be required to sign in and out each day. If they have not signed in by 9:30 AM each day, a phone call will be made to the parent/guardian.

5. Location – Camp is being held in the Welding & Metal Fabrication Laboratory on the Valencia Campus. This is located in Towsley Hall room 120 (see campus map).

6. Food – Lunch will be provided. We will be ordering food from Jersey Mike’s, Panera & Corner Bakery. If campers have food allergies, please plan accordingly. We cannot be responsible for
special dietary needs. Campers will also want to bring bottled water or a drink for the day. There are also vending machines on campus.

7. Camp hours are from 9:00 am – 3:00PM, July 20-24, 2015.

If you have any questions or concerns, do not hesitate to contact me. I look forward to seeing you all in July!

Sincerely,

Tim J. Baber
