JOB & CAREER CENTER
PROCESS OF CHOOSING YOUR MAJOR WORKSHOP
You’ll learn how to choose a major and techniques to explore your options. When choosing a major, students are encouraged to align their personality type with their interests. This workshop introduces two career assessment tools, the Myers-Briggs Type Indicator (MBTI) and Strong’s Interest Inventory (SII). It also introduces other factors to guide you through the process of choosing a major. You will leave the workshop with an access code to take the SII and MBTI, as well as a better understanding of how to move forward with selecting your major.

Be sure to sign up for the follow-up MBTI and SII Results Workshop.
