Dear Students,

Welcome to the online version of College of the Canyons' Web Programming course.

The Blackboard website for our Web Programming: JavaScript online course, section #17876, will be available on Monday, August 24th. For access, please go here:

https://bb9.canyons.edu/webapps/login/

If you have never logged into College of the Canyons' distance education website, Blackboard, please go to the above listed URL, then scroll down and follow the instructions for logging in.

Once you have logged in, a "Web Programming: JavaScript – 2015FA:17876" link should be available. Click this link to enter the course website.

Upon logging into the course on Blackboard, you should see the course syllabus. Please read it thoroughly.

After studying the course syllabus, take the “Syllabus Quiz”. This MUST be done on Monday, August 24th. The reason being is that school policy is such that anybody who doesn't show up the first day will be dropped from the course, and this represents your attendance for the first day.

If you have questions regarding logging into Blackboard, please contact Student Tech Support at 661-362-3344, or by Email at bbsupport@canyons.edu.

Thank you,

James Bible
