WELCOME
Welcome to SIGN 110: Deaf Culture! This is a Hybrid course meaning the course is conducted both on-line through Blackboard and on-campus meetings. In order to access course information, it is crucial that you become familiar and have working knowledge of Blackboard since this is where you will find and complete assignments and take quizzes and exams through the semester. Please note: Knowledge of American Sign Language is not a requirement for this course!

Course Description:
Studies various aspects of American Deaf Culture, including the description of deafness, deaf people, the Deaf community as defined by audiology and/or cultural means, services and organizations for and by Deaf people, and culture as reflected in the arts and language of Deaf people. Field assignments required.

Attendance and Course Participation:

- **On Campus:** your attendance in on-campus meetings is crucial to this course. These meetings will consist of in-depth discussion related to course material and Deaf Culture, thus attendance is mandatory. Failure to attend and participate in these meetings will significantly impact your grade.

- **On-line Participation:** Student participation in our virtual classroom is critical to your success. While there will be indepth discussions during our on-campus meetings, there will be several discussions that occur on-line. In addition, there are several assignments that you will post online, test and quizzes.
