

COOPERATIVE WORK EXPERIENCE EDUCATION

Cooperative Work Experience Education (CWEE)

The Cooperative Work Experience Education and Internship program is designed to “Connect College to Careers,” strengthen student learning and improve the likelihood of career success by:

- Engaging students in enhanced on-the-job learning opportunities at their present workplace.
- Providing meaningful paid and unpaid internship opportunities to students of all majors.
- Helping students apply the skills and knowledge acquired in their academic coursework while adhering to generally accepted business principles, standards work ethics.
- Research shows that students who participate in work-based learning programs such as CWEE, Internships and Service Learning, find full-time jobs faster and earn more money than classmates who do not participate.
- Employers offer full-time jobs to nearly 69% of students who had internships with their company.

Students earn elective units by using the community as the classroom and completing independent career related assignments.

For more information, visit our office in STCN-123 on the Valencia campus or call us at (661) 362-3309 or (661) 362-5937.

Service-Learning Center

We believe students can make valuable contributions to the world as they gain challenging educational experience. We strive...

- to increase community involvement and strengthen leadership skills through direct service,
- to connect community-based work and academic study,
- to build meaningful relationships between members of our college and our community.

Through Service-Learning, College of the Canyons prepares an educated citizenry for service to society, but also makes a deliberate contribution to helping solve significant social problems.

Service-Learning is a fascinating teaching and learning method. Consider learning more about yourself, your learning style, and your community by enrolling in Service Learning this semester.

For more information, visit the Service-Learning Center in the Student Center, STCN, Room 111 on the Valencia campus or call us at (661) 362-3231 or (661) 362-3422.
