The Technology committee purpose is to facilitate the infusion of technology into our campus structure and functioning. Our focus is to:

- Generate enthusiasm for the use of technology on campus to the benefit of student learning.
- Monitor the progress and update as needed our Technology plan.
- Assess professional development training needs in terms of technology and work with the Professional Development office to respond to those needs.
- Develop budget change proposals to submit to PAC-B for funding to implement technology plans and action priorities.
- Set the tone and promote technology development.
- Serve in coordinating/linking efforts with departments and committees as appropriate across the campus.
- Make recommendations to the Facilities Master Plan committee, staffing committees, PAC-B, Superintendent-President and College Planning Team.

The committee meetings are open to all who wish to participate. Meetings are held on the first working Monday of every month except (January, June, July and August).

**Sub-Committees:** The Web Committee and Educational Technology Committee are sub-committees of the Technology Committee. The Web Committee is chaired by the Web Master and in consultation with the PIO office, Graphics department, Audio Visual and faculty representative evaluates the District’s website and develops procedures as to the appropriate use. The Distance Learning Coordinator chairs the Educational Technology Committee. The Educational Technology committee reviews current uses of technology in the educational setting and distance-learning arena and makes recommendations for procedures that outline the proper use of educational technology and delivery of distance education curriculum.

**Voting Members:**
A core group of voting members for the Technology Committee will be established each year based on meeting attendance from the previous year. It is the attendee’s responsibility to sign in at each meeting and verify that their name is listed in the minutes. Attendance information will be taken from the approved minutes.

For the 2001-02 school year, anyone who attended a minimum of three (3) Technology Committee meetings will be considered a voting member for the 2002-03 school year. Beginning with the 2003-04 school year, you must have attended a majority (usually 5 of the 8 regular meetings) of the meetings in the previous school year in order to be considered a voting member for the current year.

Per Board Policy 345 (Academic Senate (Faculty) Participation in Shared Governance), the list of proposed voting faculty will be submitted to the Academic Senate for their approval. Should the Senate’s first meeting not occur until after the first Technology Committee meeting of the new School year, the faculty identified as voting faculty for that year will be allowed to vote pending Senate approval.

**Substitution:** Current voting members may send a representative from their classification to substitute for them in the Technology Committee meetings should they be unable to attend. The substitute cannot be a current voting member of the committee.
A list of voting members for the upcoming year will be sent out to all members of the Technology Committee after the last meeting of the school year but prior to the end of finals week.
Voting Members for 2002-03 School Year:

Wendy Brill Wynkoop (Fine Arts)
