Superintendent-President Dianne Van Hook declared a quorum and called the meeting to order at 1:02 p.m.

Quorum Established (I)

Board President MacGregor welcomed the Committee members and led the introductions of the Committee members and those in the audience.

Introductions (II)

Dr. Van Hook facilitated the election of officers for the Measure “C” Citizens’ Oversight Committee. Upon unanimous vote by the Committee members, Mr. Sheldon Wigdor was elected Chairman and Mr. Doug Sink was elected Vice-Chairman of the Measure “C” Citizens’ Oversight Committee.

Selection of Chair and Vice Chair (III)
A notebook was provided to Committee members containing:

- The Agenda
- Dr. Van Hook’s presentation to the Committee;
- Project Team Organization;
- KBZ’s Facilities Presentation;
- Members’ Names and Contact Information; and
- Purpose and Duties of the Measure “C” Citizens’ Oversight Committee.

The Committee reviewed its purpose as defined in the law and reviewed their responsibilities. Dr. Van Hook and Ms. MacGregor advised the Committee that the Board is looking to the Committee to provide formal representation of College of the Canyons and a vehicle with which to share information with the community about COC. In order to assist in this process, it was clarified that:

- The Committee is encouraged to use the Public Information Office as their resource for college information.
- The Committee will refer questions and requests through the Committee Chair, Mr. Wigdor, who will contact the Public Information Office and/or the Superintendent-President’s Office for assistance.
- The college staff will provide e-mail and fax numbers for the Public Information Office, Ms. MacGregor, and Dr. Van Hook.
- The college staff will provide a list of acronyms common to the community college arena for the Committee’s use as a resource.

Dr. Van Hook presented an overview of the District and its plans for the future via a PowerPoint presentation. Major areas included:

- Growth of the college and the community;
- History of College of the Canyons’ facility development including previous funding sources;
- Performing Arts Center;
- University Center;
- 2002 Educational and Facilities Master Plan; and
- Projects to be funded with the bond issuance.

A copy of the presentation is herein made a part of these minutes.

Mr. Dowty and Mr. Cassan from KBZ introduced, via a PowerPoint presentation, the Facilities Master Plan Building Program. Handouts were provided to the Committee. A copy of the presentation is herein made a part of these minutes.

Dr. Van Hook invited Committee members to contact Ms. Bozman in the Public Information Office to set up a tour of campus facilities.

The Committee reviewed draft copies of the 2002 Educational and Facilities Master Plan. Copies of the Facilities Master Plan will be distributed to the Committee members when the document is completed.

Dr. Van Hook presented to the Committee the projects (those listed in Measure “C” last November) for which bond money could be expended. A list of those projects was included in the handout that accompanied the presentation she made.

Dr. Van Hook reviewed the bond issuance process and timeline with the Committee. She provided copies of the presentation made to Standard and Poor’s and Fitch Ratings in San Francisco on April 8th to obtain the bond rating, which included the following topics:

- District Organization and Overview;
- District Financial Condition;
- Overview of Facility Requirements;
- Bond Election;
- Projects to be Financed with Bonds;
Ms. MacGregor advised the Committee that the College would be making every effort to secure as much money as possible. She credited Dr. Van Hook on her efforts to do so and noted that Dr. Van Hook’s knowledge of community college finance, her interface with the Chancellor’s Office, and her aggressive efforts in getting funds for College of the Canyons’ construction program was largely the reason the College has made the progress it has.

Ms MacGregor noted that expenditure of some funds relative to architectural planning, project design, and consultants has already been made. She further noted there would be a separate fund set up relative to the building projects funded by the bond. Financial reports will be distributed on a monthly basis to this Committee as expenditures occur. They will provide notations as to what the expenditure was for as allowed by Proposition 39 relative to the governance of Measure “C” bond funds.

Ms. MacGregor suggested providing a list of acronyms to the Committee members, as they aren’t familiar with many of the terms used in the community college setting. Dr. Van Hook advised the Committee that this document had already been developed and would be sent to the Committee.

The College staff will notify the Committee when the bonds are issued.

Dr. Van Hook advised the Committee that because of the process the College is following regarding the bond issuance, the next meeting would not be scheduled until early Fall 2002. Members were asked to provide information on their availability to attend meetings to the Superintendent-President’s Office.

The meeting was adjourned at 3:12 p.m.
