College of the Canyons
High School Senior Workshop Series

College of the Canyons is offering a workshop series this Spring for all graduating seniors. The workshops are designed for first-time, first-year college students to support their transition to college life and enhance their college success.

Jump start your college career by signing-up for one, two or all five workshops!

Workshops Offered

New Student Steps to Success - Have questions about what College of the Canyons has to offer? Need help getting started? Let us welcome you to the college and walk you through the New Student Checklist to ensure priority registration for Fall 2015.

How to Choose a Major? - Are you undecided about your major? Unsure what major to choose for your dream career? Want to explore and learn more about career pathways? We’ll help you discover what majors/careers are best suited for you.

Math Assessment Preparation - Has it been a while since your last math class? Is math challenging for you? Let us help you review before taking your math assessment! This intensive workshop led by COC Math faculty will help students review math concepts including arithmetic, elementary algebra, and college level mathematics.

New Student Virtual Advisor Support - Want additional support as you navigate your way through the Online Virtual Advisor? This workshop will provide a brief overview of certificates, associate degrees and transfer preparation requirements and then support students as they complete the Online Virtual Advisor and develop a one-semester educational plan.

New Student Virtual Advisor 2.0 - You developed your one-semester educational plan, so now what? This is a follow up to the Online Virtual Advisor Support workshop where students can ask questions about their educational plan and learn about all the alternative ways to take classes at COC.

Workshops offered March—June 2015
