

CHAPTER 7

Across

- 1 AKA DNA ----> mRNA
- 5 Degrades proteins
- 9 Specifies the amino acid sequence
- 10 Site of protein synthesis
- 11 RNA ----> protein

Down

- 2 A catalytic RNA
- 3 Molecule used as an adaptor
- 4 Process in which introns are excised
- 5 RNA polymerase binds to begin transcription
- 6 Segment of eukaryotic gene that codes
- 7 Excised region of a gene
- 8 Sequence of 3 nucleotides
