

# College of the Canyons CLUES

## Biotechnology Program:

### Order Form

(Note: incomplete or illegible forms will delay processing!)

Please use a separate form for EACH different module and/or version ordered. You will be notified in 3 working days as to the status of your request.

Date: \_\_\_\_\_

Name \_\_\_\_\_ School: \_\_\_\_\_

Module Name and Number \_\_\_\_\_

Version: \_\_\_\_\_ Number of Students: \_\_\_\_\_

Exact pick up date and time: \_\_\_\_\_

Work phone #: \_\_\_\_\_ Home Phone # \_\_\_\_\_

#### Things to remember:

- The contacts for the program is Jim Wolf.
- I encourage you to order no more than one module (and there is a maximum of two) at any given time.
- Modules are checked out for a period of 13 days starting on a Friday, and are due back Thursday. It is imperative that everyone stick to this schedule, as late returns will impact other schools use of the program (and your future access to the program.) The pick up will occur in building L-203. A map is on the back.
- The modules are made available on a first come, first serve basis and there is a minimum 2 week prior notice to ensure the modules are ready for pick up.
- Accompanying the modules are brochures from College of the Canyons Biotechnology Program. Please take a few minutes to explain to the students the career possibilities inherent in biotechnology and the role that College of the Canyons can play in these plans.
- Your College of the Canyons CLUES order can be placed by faxing the above completed form to **(661) 255-1625**; attn: Jim Wolf, or by calling or emailing:
- Jim Wolf @ (661) 259-7800 ext. 3092, wolf\_j@mail.coc.cc.ca.us

**Remember to include all above noted information.**

**Directions to College of the Canyons Biotechnology Program equipment pick up site.**

**From the 5 Freeway, going north. Exit at Valencia and go right. Make the first right (about 100 yards from the off-ramp (West Road.) Continue on this road past the football and baseball field. Once you see the X1 building (a preschool) make a left and head up the hill. Park in one of the green loading zones next to the James Boykin Science Center. The stockroom is located on the second story (L-203.)**
