In Memoriam

It is with great sadness that we mourn the passing of two members of the COC family...

- Phillip Murg worked as a short-term employee at the Employee Training Institute, the Center for Applied Competitive Technologies and as an adjunct manufacturing technology instructor. A scholarship has been set up in his honor to benefit students working in the Computer Aided Drafting Program at COC.
- Steve Dixon retired in 2012 as a Fire Technology Instructor at COC. Prior to Steve joining COC in 1998, he was the Fire Chief at Manhattan Beach Fire Department. COC's Fire Technology Program tripled in size during Steve's 14-year tenure. Steve also arranged for the donation of a fire engine from the City of Los Angeles.
- Phil and Steve inspired their students and changed so many lives by providing them with technical training so that they could thrive in the workforce. Their legacy will live on through their students. We will miss them both.
