Science Center and SSLRC Update

The interior of the new Science Center continues its progress, with the exterior looking nearly completed. Along with the adjacent amphitheater's beautiful stairways, trellises, and seating, the middle of campus continues to take shape. North of the new amphitheater space, the Student Services & Learning Resources Center (SSLRC) continues to grow upward, with beams reaching for the sky, as seen in this picture. When completed, this building will house the majority of student support services, in addition to a new library and TLC. These two new buildings will create a new central campus for students that increases instructional space and centralizes services.
