

Certificate of Specialization: Carpentry Technology

The Carpentry Technology Certificate of Specialization is designed to prepare students for entry-level positions in carpentry. Students will gain skills in a wide variety of carpentry applications including but not limited to safety, hand and power tools, wall and roof framing, finish carpentry, and cabinetmaking. Students who complete this certificate will also be eligible to earn industry recognized credentials from the National Center for Construction Education & Research (NCCER).

Certificate Student Learning Outcome:

Students will be able to apply basic skills and knowledge required for employment in a carpentry technology related trade.

Program Requirements:

Units Required: 14

		Units:
CONST-025	Introduction to Construction Technology	2.0
CONST-030	Carpentry Technology I	2.0
CONST-032	Carpentry Technology II	2.0
CONST-034	Interior Finish Carpentry	2.0
CONST-103	Blue Print Reading for Construction	3.0
MFGT-090	Measurements and Computations	3.0
