

KPE Department Meeting
November 18, 2011

1. Denee Pescarmona spoke to the department about identifying students who need help and how the Zone can be of service in this area.
2. Nicole Lucy and Paul followed up on the ISLO assessments that were completed last spring. They provided us with the analysis of that survey. Nicole provided the group with 5 handouts (can scan upon request).
3. Len Mohney thanked the group for turning in their orientation letters. He reported on the budget and the prioritized cuts and stressed that fundraising will continue to be important for our teams.
4. Albert Loaiza reported on priority registration for winter and that the school hopes to have a new system in place so he can run reports from his office and be more efficient in helping the students with registration. Albert also reported that the zone will be closed during the winter when registration for spring is going on, but he will be there to help with priority for the athletes.
5. Len Mohney re-caped each team's season.
6. A report on Adjunct Eval's was given by Len. He asked everyone to stay on top of them, that we are in good shape.
7. Lisa Hooper talked about book company Donatelle and asked the group if they would be interested in moving towards developing their own material and doing away with expensive books.
8. Robert Dos Remedios is having a toy drive on December 9th. The TRX truck is coming and anyone who wants to participate needs to bring an unwrapped gift. It starts at 11am. Toys will be donated to the Boys and Girls Club.
9. A department Christmas party is being planned on December 9th.
