

BSBP Transfer Course Comparison

Publish Date – 5.02.2025

This document illustrates side-by-side comparisons between courses offered at College of the Canyons with equivalent courses from other local community colleges for the purpose of satisfying prerequisites for admission into the Bachelor of Science in Building Performance (BSBP) degree program and course transfer. This document is intended to serve solely as a reference for potential applicants and for use by Canyons staff and faculty to determine potential course equivalencies. For more info on program admissions requirements and prerequisites, please refer to the current [BSBP Student Handbook](#). Determinations for transfer of Architecture/Interior Design courses completed at an upper division university should be brought to the attention of the Architecture and Interior Design Program Chair (Jason.Oliver@Canyons.edu).
