

Diagnostic Medical Sonography AS (Associates GE Track)

+If you have completed coursework at another college and/or are starting in a semester other than a Fall term, please follow up with the Counseling Department to determine if this sequence is appropriate for your academic and career goals.

Program Description: The Diagnostic Medical Sonography (DMS) program prepares students for entry-level positions in medical sonography through comprehensive training in abdominal, superficial structures, obstetric and gynecologic ultrasound. Through didactic instruction, laboratory training, and hands-on clinical experience, students gain the knowledge, technical skills, and critical thinking abilities required to perform diagnostic imaging across multiple specialties. Graduates will be eligible to apply for ARRT (American Registry of Radiologic Technologists) and/or ARDMS (American Registry for Diagnostic Medical Sonography) certification exams (**pending CAAHEP accreditation**).

Program SLO: Demonstrate cognitive knowledge, psychomotor skills and ethical patient care for diverse populations as competent entry-level sonographers in Abdominal Sonography and Obstetrics and Gynecology concentrations.
