

# PUBLIC HEALTH

## **Associate in Science for Transfer (AS-T) in Public Health**

Public health concentrates on managing illnesses that may impact a community, educating people about basic personal hygiene and environmental sanitation and organizing medical and nursing services to facilitate early disease diagnosis and preventative treatment.

**Program Units Required:** 24-26 (plus 60 semester units eligible for transfer)

### **Prepare for a job in settings such as:**

Hospitals  
State and local health departments  
Non-profit agencies  
Educational institutions  
Research organizations  
Community health clinics

**Apply and register at [www.canyons.edu/NewStudent](http://www.canyons.edu/NewStudent)**

The Student Transfer Achievement Reform Act guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer”, a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. Students completing an AS-T Degree are guaranteed admission to the CSU system, but not to a particular campus or major.

## Program Requirements:

	Units
<b>HLHSCI 100</b> – Health Education*	3
<b>HLHSCI 140</b> – Introduction to Public Health	3
<hr/>	
Plus one course from the following:	
<b>HLHSCI 113</b> – Social Determinants of Health, Disparities and Equities – new course	3
