

COLLEGIAL CONSULTATION COMMITTEES & OPERATIONAL TEAMS 2026-27 FACULTY APPOINTMENTS

Collegial Consultation Committees are a reflection of the spirit and requirement outlined in Assembly Bill 1725 (1988):

"The right to participate effectively in district and college governance, and the opportunity to express their opinions at the campus level and to ensure that these opinions are given every reasonable consideration, and the right of academic senates to assume primary responsibility for making recommendations in the areas of curriculum and academic standards."

These committees draw their membership from all employee groups and may include student or community representation. They are charged with examining issues relevant to their particular area of focus, fostering dialog on possible solutions, and ultimately making recommendations for moving forward.

ACCREDITATION TASKFORCE

List to be confirmed by the Academic Senate on 9/10/2026

College of the Canyons accreditation planning-related processes and reporting are conducted in a collegial, participatory governance committee that meets regularly to address annual Accreditation Commission requirements. This committee helps connect the College Planning Team (CPT) to continuous quality improvement efforts being conducted in almost all areas of the college, including the Committee for Assessing Student Learning / Program Review (CASL/PR) and President's Advisory Committee on Budget (PAC-B).

The Accreditation Committee ensures that an ongoing college-wide dialogue among all constituent groups, including students, takes place that links the work of college committees, faculty, staff, and administrators to accreditation eligibility requirements, standards, commission policies, and the impact of enhancements to college processes on institutional effectiveness. This analysis, in part, is established through the committee's development of annual reports, self-evaluation and midterm reports, as well as substantive change reports.

As a subcommittee of the College Planning Team (CPT), the Accreditation Committee suggests process improvements to many other college groups and committees, while coordinating analysis and reporting of information that originates from teams working on the quality focus essay.

Focus:

- Analysis and documentation of trends in:
- Institutional set standards
- Student, program and institutional outcomes
- Student service outcomes
- Administrative unit outcomes
