Certificate of Achievement: Tooling and Milling

This certificate provides students training in to the necessary theoretical and professional skills necessary to safely operate manual metalworking and machining equipment. Prepares students for certification to the National Institute of Metalworking Skills (NIMS) in drill press, milling and turning operations. Upon completion of the certificate, students will be able to work in the automotive, aerospace, and manufacturing industries.

Certificate Student Learning Outcome:

Students will be able to perform a variety of metalworking and machining applications that meet or exceed industry standards.

Program Requirements:

Units Required: 19

MFGT-090 MFGT-100 MFGT-101 MFGT-102 MFGT-103 MFGT-104	Measurements and Computations Industrial Safety Print Reading for the Machine Trades Geometric Dimensioning for the Machine Trades Metrology for the Machine Trades Metallurgy for the Machine Trades Benchwork and Handtool Fundamentals	Units: 3.0 2.0 2.0 2.0 2.0 2.0 2.0 2.0
MFGT-106	Applied Manual Machining	4.0
