Associate in Arts Degree: Technical Theatre

The Technical Theatre program is designed to provide basic academic and practical training in technical theatre at the entry level for resident and touring theatres, theme parks, television and motion picture students or for students to transfer to a four-year school.   Students may work on theatrical carpentry, lighting, costume construction etc.

Degree and Certificate Student Learning Outcomes:

Students will be able to:

-Demonstrate professional behavior as part of team implementing technical theater elements for a production.
-Demonstrate safe construction and installation techniques for technical theatre disciplines such as scenery, lighting, or costumes.
-Analyze a script, paying particular attention to technical elements.
