Subject: Discipline Assignment

The following information is provided for discipline assignment:

Kempler, Adam
Current discipline(s) on file: **English**
                                Psychology

The following information is provided for discipline assignment:
- Master's degree in English Literature (CSULB); and
- 24 units of course work in the discipline of the assignment (at least 12 units must be graduate or upper division)

        Orange Coast CCD
        ▪ PE 111AD Weight Training (Sum 83)   1 unit
        ▪ PE 108AD Strength Program (Fa 84)*   1 unit
        ▪ PE 108AD Strength & Conditioning (Sp 85)* 2 units
        ▪ PE 108AD Strength & Conditioning (Fa 85) * 1 unit
        ▪ PE 108AD Strength & Conditioning (Sp 86)* 1 unit
        ▪ PE 107AD Fitness Program (Fa 87)   1 unit
        College of the Canyons
        ▪ PHYSED 100 Health Education (Su 05)   3 units
        ▪ PHYSED 150 Physical Fitness Lab (Su 05)   1 unit
        ▪ PE 118 Red Cross Lifeguard Training (Fa 05) 1 unit
        CSUN (Upper division courses)
        ▪ KIN 313 ADA/THER AQUATICS   (Su 05)   2 units

        ▪ KIN 499C Independent Study (Fa 05)*   3 units
                                                     24 units total

*These are repeatable courses.

PE108AD-Orange Coast allows for repeatability of this course four times if course content is different and student gains expanded educational experience, per Admission information.

KIN 499C involves differing research projects and outcomes per Undergraduate Director of the Kinesiology Department at CSUN.

It would appear that Mr. Kempler meets Equivalency #1 for the discipline of **Physical Education**.

DATE: February 16, 2006

TO: Michael Dermody/Academic Senate President

CC: Diane Fiero, VP of Human Resources

FROM: Christina Chung, Human Resources (ex. 3425)

SUBJECT: Equivalency Determination – Nursing (Clinical Practice)

The Human Resources office was asked by the Nursing Department to submit the following equivalency information to the Academic Senate for review.

Currently, the minimum qualifications for Nursing (Clinical Practice) are:

> Two years of experience in that discipline with any Bachelor's degree or better and any certificate or license required to do that work or six years of experience in that discipline with an Associate's degree and any certificate or license required to do that work.

The department would like to request that the following equivalency #10 be approved for Nursing (Clinical Practice):

> **Diploma in Nursing with 6 years of experience in that discipline**

The Diploma in Nursing is typically three years of nursing school as apposed to the two years of an Associate degree. This equivalency will only apply to Nursing Science: Clinical practice and NOT Nursing Science: Academic Masters Prepared. The Board of Registered Nursing approves instructors who have a Diploma in Nursing.

If you have any questions, please feel free to contact me at ex. 3425.

PROPOSED BOARD POLICY
614. STATEMENT ON ACADEMIC FREEDOM

A. GENERAL PRINCIPLES ON ACADEMIC FREEDOM

1. Free discussion is a right possessed by all citizens based upon the first amendment of the U.S. constitution. (removed quotes) free discussion is a right, academic freedom is not.

2. A free society functions best when its citizens can exercise the right to discuss, debate, disagree, challenge and engage in dialogue.

3. An educated citizenry is best able to nurture the valued freedoms as an institution of higher education in a democracy.

4. Only in an environment that promotes an open and free exchange of ideas can the tools of critical inquiry promote societal progress.

5. The District, as an institution of Higher Education, has an obligation to the community to promote thoughtful discussion. (speaking as a private person)
   a. Within the context of academic freedom, faculty and students will be provided opportunities for critical thinking and personal growth.
   b. To successfully provide for these opportunities, academic freedom requires that there is protection from the threat of political or personal attack.
      i. This is especially true when faculty members exercise their professional obligations in assigning textbooks, student learning activities and honest feedback to students.

B. FACULTY RIGHTS AND RESPONSIBILITIES

1. The faculty of the District have the freedom to consider all issues which contribute to the education of students.

2. Quality in teaching involves integrity as well as competence. Integrity requires the presentation of differing interpretations with intellectual rigor.

3. Freedom to seek truth is pointless if the search is not carried on actively. Although one should be free to do so, the community college instructor is not expected to 'engage' change to 'conduct' in advanced research. However, the absence of tangible reports and monographs does not excuse one from the need to develop knowledge of one's subject and one's skill as an instructor.

4. Freedom of expression is essential to the task of communicating scholarship and learning. To this end, faculty should have substantial obligation in ensuring that their courses or other presentations reasonably correspond in coverage and emphasis to the professional obligations inherent in their discipline. What does it mean? You keep up with your discipline.

5. Faculty members are also private citizens, with all attendant rights and responsibilities. However, when they speak or act in their capacity of private citizens they must not give rise to the perception that they are speaking on behalf of the District. Employee of college, not speaking for college, ex. My personal…

6. As members of a profession that relies on Academic Freedom, all faculty members have a special obligation to promote education on the rights and responsibilities of academic freedom to their colleagues as well as the general community. Be sure to get it to them.
   a. Faculty members have the duty to inform new faculty of their academic freedom rights and responsibilities.

C. STUDENT RIGHTS AND RESPONSIBILITIES

1. An education which seeks to shield students from unpopular ideas, unpleasant facts and unwelcome problems does a disservice to the students and is a discredit to the community which supports the institution on the assumption that the purpose of study is free, fearless and unbiased pursuit of knowledge.

2. In light of faculty members' professional responsibilities, students are also free to take reasoned exception to the concepts and conclusions presented in any course of study and to reserve judgment about matters of opinion. Reword

3. Students are, however, responsible for learning the content of any course of study for which they are enrolled.

D. INSTITUTIONAL RESPONSIBILITIES AND SUPPORT

1. The freedom of all faculty to inquire, to teach controversial content, to model and encourage critical thinking, and to present all viewpoints in the teaching and learning process can only be guaranteed by the District's institutional support of academic freedom.

2. Similarly, the freedom of all students to inquire, to have access to the full range of information available, to explore difficult and controversial material, to develop and practice critical thinking skills, to operate in a classroom climate free of intimidation and censorship must be similarly guaranteed by the District.

3. The District will ensure, within the context of the California Education Code, that the Faculty's professional rights to assign grades will be kept free from political influence, business oriented productivity standard, or threat of lawsuit. Funding concerns, after free academic considerations.

E. ADVISORIES ON ACADEMIC FREEDOM

1. There will be occasions when further clarification and definition of Academic Freedom may be required by the District, District Administration, college committees, faculty, students, and/or community members.
   a. This may be particularly relevant for college committees which must make a recommendation or decision that might be based upon, or might impact, academic freedom.
2. The Academic Senate will develop guidelines for providing advisories on Academic Freedom.

PROPOSED SENATE PROCEDURES:
ADVISORIES ON ACADEMIC FREEDOM

WHO MAY REQUEST AN ADVISORY?

An advisory on Academic Freedom may be requested by a college committee, district official, faculty member, student, or community member.

If an individual is making a request, he or she must be clear on whether such a request is being made on behalf of a recognized group, or as an individual.

ESTABLISHMENT OF ADVISORY COMMITTEE

An ad hoc committee will be convened only when a specific request for an advisory has been presented to the Senate.

If several requests address the same or similar issues, the Senate reserves the right to have the advisory committee combine all similar requests and issue one unified advisory.

COMMITTEE MEMBERSHIP

The committee will consist of:
    *At least three faculty members, one of whom will serve as chair;
    *A student representative appointed by the ASG;
    *An Educational Administrative representative appointed by the College President.

No committee member shall have an immediate interest in the issue being discussed.
AB1725 students should have their voice heard
When there is a question involving a particular academic discipline, at least one faculty members will be from the same or a closely related discipline, and at least one faculty member will be from a different division.

COMMITTEE ADVISORY

The committee will provide its advisory on Academic Freedom to the parties requesting the advisory, as well as the Academic Senate.

*In Personnel matters and other issues that require confidentiality, the report will limit itself to underlying principles, and omit all names or other personably identifying facts.
Should something about confidently be here? Not a concern run by HR.

APPLICABILITY OF ADVISORY

Although the advisory is non-binding, it is to be understood by all parties that the advisory is to be as the professional opinion of the Academic Senate.
Purpose of Academic Freedom is to broaden rather then restrict.

Standing Procedures –
Department Chair elections

According to the COCFA contract, the Senate is responsible for administering the election of Department Chairs.

Before we begin the process for the next term, we might want to briefly review our standing procedures for the chair elections.

1. Calls for nominations go out to every full-time faculty member in the department. Faculty members have a week to return nominations.
    a. Faculty members can nominate themselves, or another member of the department.
    b. Faculty members can only nominate individuals in their own department.

2. The willingness of nominated faculty members to serve as Department Chairs is confirmed.

3. If only one candidate is available for department chair, then that candidate is deemed to have been elected "by acclamation", unless there is a formal request for a ballot.
    a. If requested in a single-candidate race, a "yes/no" ballot will be issued to the department.
    b. The balloting will be open for one week.
    c. If the individual does not receive a majority of ballots cast, then nominations will be reopened.

4. If there are two or more candidates for department chair, then an election will be held.
    a. Balloting will be open for one week.
    b. A successful candidate must receive a majority of the vote cast (50%+ 1).
    c. If no candidate receives a majority, a run-off ballot will be provided with the names of the top two candidates.

5. If a department does not have a faculty nominated for chair, then the position of department chair for that faculty will be open to the entire full-time faculty.

6. All elections must be confirmed by the full senate. Any challenges to the election process shall be made at that time.

Question when will ballots be held? March before summer.
