Academic Senate Summary

April 23, 2009

Attendance: Michael Dermody, Michael Sherry, James Lorigan, Joan Jacobson, Lea Templer, Julie Lawson, Jose Martin, Ann Lowe, Fred D'Astoli, Patty Robinson, David Andrus, Cindy Stephens, Pamela Borrelli Wendy Brill, Jennifer Brezina, Denée Pescarmona and Philip Marcellin

The consent calendar was approved, which included the Senate Summary for March 26, 2009; Curriculum summaries for March 19 & April 2, 2009; confirmation of David Brill as Fine Arts Rep to the Curriculum Committee;; and discipline assignment for M. Corbett.

John Rice Diversity Award: Contact Michael for additional information.

Curriculum Committee Operating Procedures are being reviewed, with a goal to clarify as well as streamline and better improve the procedures. In addition, Michael will be available on April 29 at 3:00 p.m. to 4:00 p.m. to discuss any concerns with the Math Science Division.

TBA hours are being heavily reviewed by the system office. Meetings have been held with chairs and Deans who have TBA hours to try to find a satisfactory solution for TBA hours

Scholarly Presentation is April 29, 2009 in the PAC. Please encourage your colleges to attend as we "support our own". If you are interested in presenting a scholarly presentation please complete the application. We will be having two presentations one in the Fall and one in the Spring.

Changes are coming to the Commencement ceremony. The procession will start at 9:15, and we recommend flat, comfortable shoes since we will be walking down stairs. To help relieve possible heat problems we are starting earlier, orienting the faculty to the east, and placing water under all faculty chairs. In addition, the graduates breakfast has been replaced with post-ceremony reception.

Title V/DLA policies have been reviewed by Ed Tech and Curriculum. They are proposing that *"If any portion of the instruction is designed to be provide through distance education in lieu of face-to face interaction between instructor and student, the course shall be separately reviewed and approved according to the district's adopted course approval procedures"* The Senate expressed an interest in having some additional documentation on how to implement this proposal.

Ongoing activities:

- Open discussion on CWEE Minimum Qualifications.
- The ad hoc Honors Program met and has started discussion on implementing an honors program. Since this is a curricular issue, final adoption will need to be confirmed by the Senate.
- Program Review will be back at the next Senate meeting. The desire for the Senate was to create a much stronger liaison with Barry's office regarding program review.

The 2009-2010 Calendar for Senate and Curriculum was approved.

There was discussion on the structure of the Curriculum Committee and the roles of the various members. Michael stressed that faculty need to report to him any specific problems that might emerge with the process, or with any member of the committee.

Collegial Celebration will take place on May 28, 2009 in place of our meeting in regular senate meeting. More information will follow.

Adjourned at 4:45 p.m.

(Selections from) Academic Senate (Faculty) Participation in Shared Governance

1. “Rely Primarily On”

Those areas in which the Board of Trustees will “rely primarily on” the advice and judgment of the Faculty Senate include:

- a. The development of curriculum, including the establishment of prerequisites and planning of course disciplines;
- b. The Determination of degree and certificate requirements;
- c. The establishment and review of grading policies;
- d. The establishment of standards and policies regarding student preparation and success;
- e. The appointment of faculty members to District and College committees;
- f. The establishment of policies, procedures and programs for faculty professional development activities (excluding financial expenditures for faculty development);
- g. The development of processes for program review.

In the above areas, the recommendation of the Senate will normally be accepted. Only in exceptional circumstances or for compelling reasons will the recommendation not be accepted...When the Board of Trustees does not wish to accept the advice of the Senate on these matters, the Board will send a written communication (or designee) to request that the Senate take into consideration the consensus and issues raised by the Board of Trustees...If, upon reconsideration, the Senate does not change its initial recommendation and, if it is the opinion of the Board that the exceptional circumstances/compelling reason(s) still exist, the Board may reject the advice of the Senate. In such cases as this, existing policies and practices will remain in place.

This being the case, the final determination with rationale will be communicated to the Senate in writing.

2. “By Mutual Consent”

Areas specified by Title V [Subsection 53200(c)] as “Academic and Professional Matters” where the Board of Trustees and the Senate obligate themselves [or their designee(s)] to reach mutual agreement, resulting in written resolution, regulations, or policy include:

- a. The development of new educational programs;
- b. District governance processes (except 1.e. above);
- c. The delineation of faculty roles and involvement in accreditation processes (including the development of the self-study and strategic plan updates [annual reports]);
- d. Financial policies of faculty professional development activities;
- e. The determination of processes to be utilized in institutional planning and budgeting; and
- f. Other “Academic and Professional Matters” as mutually agreed upon between the Board of Trustees and the Faculty senate.

In the above areas, the recommendation of the Senate will normally be accepted. Only in exceptional circumstances or for compelling reasons will the recommendation not be accepted...When the Board of Trustees does not wish to accept the advice of the Senate on these matters, the Board will send a written communication (or designee) to request that the Senate take into consideration the consensus and issues raised by the Board of Trustees...If, upon reconsideration, the Senate does not change its initial recommendation and, if it is the opinion of the Board that the exceptional circumstances/compelling reason(s) still exist, the Board may reject the advice of the Senate. In such cases as this, existing policies, and practices will remain in place.

This being the case, the final determination with rationale will be communicated to the Senate in writing

PROPOSED PROCEDURES FOR MERGING/SPLITTING DEPARTMENTS

1. Formal written proposals to split a department, merge a department, or change a department's name will be brought to the Senate. These proposals can be initiated by a department or by the Instruction Office.
2. For proposals involving merging or splitting departments, the Senate will establish an ad hoc committee to review the proposal.
 - a. The Senate will appoint at least two faculty members from each department impacted (one of whom will be designated as the chair of the ad hoc committee), and two faculty members from outside the department. The CIO will appoint a representative from the Instruction Office.
 - b. The committee may add additional, non-voting resource members as it deems necessary.
 - c. For proposals involving renaming of departments, a separate ad hoc committee is not necessary.
3. The written proposal for a departmental change should address the following issues:
 - a. How will the proposal help the students of the college?
 - b. Is the proposal part of a program review recommendation? If not, what has changed since the last program review that would support the proposal?
 - c. What is the opinion of the impacted faculty members?
 - d. Does the Instruction Office support the proposal?
 - e. Will the proposal provide for a more effective use of time, resources, and faculty?
 - f. Is the proposal similar to the departmental structures at other institutions?
 - g. Will this proposal increase or alleviate the "Goldilocks Factor" (e.g., "too big...too small....just right!")?
 - h. Would the proposal have any impact on negotiated agreements with either of the two faculty unions?
 - i. What impact could this have on any governance proposals?
 - j. Are there any possible negative impacts of such a change?
 - k. Are there any additional issues raised by the Senate or the Instruction Office?
4. The committee will forward its recommendation to the Senate and the Instruction Office. If there is mutual agreement with the Senate and the Instruction Office, the proposal will be granted "provisional approval".
5. The proposal will receive final approval when the following conditions have been met:
 - a. The Curriculum Committee has approved of any new course numbering system (if necessary);
 - b. The Articulation Officer certifies that there are no outstanding articulation issues;
 - c. All appropriate college offices have been notified for any changes required in the college catalog, brochures, and other publications;
 - d. Any outstanding contractual issues have been resolved; and,
 - e. Any other conditions that may be requested by the Instruction Office or the Senate.
6. Unless a specific implementation date is not detailed in the approval process, final implementation will take place at the start of the next academic year.
7. This procedure is considered as one of the "other academic and professional matters" describe in Board Policy on Faculty Involvement in Governance (BP #645). It is an area where the Senate and the District will reach mutual agreement.

DISCUSSION ITEMS:

Remember, on **May 7th** we will be meeting at the **Canyon Country Campus in Room 300** from 3:30 to 5pm.

Deana Riveira would like to allow someone else the opportunity to be responsible for Stage 6 DLA approval in WebCMS -- and Jennifer Brezina has volunteered. Thank you Jennifer!

Ann Lowe distributed a handout showing new Title V language regarding Distance Learning Standards. The Committee concurs with our Ed Tech Committee and recommends to the Academic Senate that if a class is designed to have any percent taught online (anything that is not 100% on ground) an approved DLA is required.
