Academic Senate Summary**October 8, 2009**

Attendance: Michael Dermody, Joan Jacobson, Lee Hilliard, Lea Templer, James Lorigan, Robin Allison, Michael Sherry, Miriam Golbert, Tammera Rice, Kevin Kistler, Stan Wright, Chelley Maple, Debbie Rio, Jasmine Ruys, Deanna Riveira, Susan Prior, Ann Lowe, Fred D'Astoli, Dorothy Minarsch, Pamela Borrelli, Chris Blakey and Patty Haley

The consent calendar was approved, which included summaries for Senate September 10 & September 24, 2009; Curriculum summary for September 17, 2009; confirmation of Tina Waller as representative for Allied Health; and moving the status of the Sustainable Development Committee from “ad hoc” to “regular”.

In the CCC report, Fred D'Astoli, reported on the CCC for a Star Party on October 23, 2009. Other CCC items:

- FTES is up 18%; down 11% in number of sections from fall 2008; up 12% in headcount over fall 2008;
- the Foundation Resource Council met at CCC for the first time on 9/24/09 when it toured ECE CDC;
- hand washing/cleansing stations installed in high traffic areas for health and wellness;
- reprographic services doing well with many faculty are making use of the services.

Grades and Attendance subcommittee has nothing to report at this time.

Program Review updates were reviewed by Miriam Golbert. These items included:

- | | |
|------------------------------------|--|
| • Changed software | • Asking # of times a course has been offered |
| • Expand boxes | • “weakness” changed to “challenges” |
| • Greater editing ability | • Expand field to 100 to 200 words |
| • Larger Font | • Annual review as “read only” for faculty members |
| • Landscape orientation | • Year to year data |
| • Greater connection to the budget | |

Honors Program, again according to Miriam Golbert, is doing great. Tremendous student response has led to an increase demand for specific Honors courses as well as a two-year program.

Proposed Minimum Qual changes for “non-masters” discipline, was discussed by the Senate. This is a topic that those disciplines using a non-Masters MQ should be up to speed on. In short, the proposal would decree that there is NO equivalency available for an AA degree.

Website focus group was reported on by Jasmine Ruys. Overall there was student satisfaction with our Website – however, there is still a demand for a more effective “search” function. A synopsis of the report is available on the Senate Website; contact Jasmine for a full report.

Revisions (Policy and Procedures: Concurrent Enrollment Policy/Procedure) were approved by the Senate.

The use of the placement test as a “entrance exam” for concurrent enrollment was removed (although students must still participate in the placement/testing process)

Minimum Quals for CWEE was discussed by Stan Wright. The consensus was that we should have a “Readiness Checklist” for CWEE, similar to the “On-Line Instructor Readiness Checklist”. Stan will prepare and bring forward a proposed checklist for further discussion.

The Computer Log-in Statement, which was to be implemented in 2002, has finally been implemented. This is mandated by Board Policy 815. Check with Jim Temple for additional insight and information.

Adjourned at 4:10.

Ms. Rika Wakelin

Ms. Wakelin has been hired as the Director, Medical Laboratory Technologies, effective start date October 7, 2009. The following are the requirements for a Director of a Medical Laboratory Technology program:

- Holds a nationally recognized generalist applicable certificate (licensed CLS or MLT)
- Master's or doctoral degree
- Has three years of experience in clinical laboratory science education that includes:
 - Teaching courses;
 - Conducting and managing learning experiences;
 - Evaluating student achievement;
 - Providing input into curriculum development;
 - Policy and procedure formulation;
 - Evaluation of program effectiveness;

 - Current accreditation and certification procedures.

The following is provided for discipline assignment.

- California Licensed CLS valid through 8/13/2010
- MS, Biology, CSUN
- 3+ years teaching clinical laboratory science at CSUN and Pierce

It would appear that Ms. Wakelin qualifies for the discipline of **Medical Laboratory Technologies**

Martinez, David

Current discipline(s) on file: **Engineering**

The following information is provided for additional discipline assignment in Manufacturing Technology:

- M.S. in Operations Research Engineering (USC)- on file; and
- Eight (8) years of experience in Manufacturing Technology (please see attached experience sheet)

It would appear that Mr. Martinez meets the minimum qualifications for the discipline of **Manufacturing Technology**.

Ms. Kelly Burke
