

Summary PV Committee, October 20, 2016

Members Present: Rebecca Eikey, David Andrus, Ann Lowe, Albert Loaiza, Jerry Buckley, Kimberly Bonfiglio, Wendy Brill, Lisa Hooper

Members Absent: ASG Student rep

Guests: Omar Torres, Cindy Schwanke, Eric Arnold, Regina Blasberg, Ron McFarland

- 1. The Program Viability Evaluation Rubric was reviewed for the Public Health AS-T Proposal** was reviewed. There was initial concern from the committee as the amount of information required for state approval for this program since it is an AS-T degree but also designated as CTE.

Confirmation with

The committee recommendation:

Public Health AS-T Proposal be initiated as a **new pilot** program status.

Culinary Arts AS-T Degree Proposal was reviewed. The Culinary Arts program would like to create an AS-T degree per direction from their Advisory Board and local employers.

The committee recommendation:

Additional information is needed and authors should resubmit proposal.

- 2. Construction Technology Proposal** was reviewed for the third time. There is an existing grant, Career Pathways Trust Grant, related to the development of Construction Technology Programs. The Proposal consisted of a **Substantial Modification** to an existing credit program (solar/plumbing) and an **Initiation** of a new non-credit program. The solar component was removed from this version of the proposal. There were still questions from the committee related to which courses are planned for credit vs noncredit.

The committee recommendation:

Additional information is needed and authors should resubmit proposal.
