

Paralegal Studies - AA (American Bar Association (ABA) GE Track)

+If you have completed coursework at another college and/or are starting in a semester other than a Fall term, please follow up with the Counseling Department to determine if this sequence is appropriate for your academic and career goals.

Program Description: The paralegal profession continues to be one of the fastest growing professions in the United States. COC's Paralegal Studies curriculum prepares students for positions as paralegals in order to improve the accessibility, quality, and affordability of legal services. The Paralegal Studies program's goals are to ensure that students who successfully complete the Paralegal Studies program by obtaining an associate degree; have a broad-based understanding of the American legal system; and the role of the paralegal in that legal system; the legal theoretical background needed to perform paralegal tasks in substantive areas of law and legal specialties; the knowledge of procedural law emphasizing the paralegal's role in litigation, mediation, and arbitration; the skills in areas including investigation, legal research, legal technology, conducting an interview, and written and oral communications; ethically serve the public and the legal system; and the tools needed to become contributing members of the legal profession. Successful paralegals have excellent organizational skills and the ability to perform complex, detailed work quickly and accurately, as well as the ability to work well under pressure. Examples of tasks commonly delegated to paralegals include performing legal and public records research, obtaining and organizing evidence, interviewing clients and witnesses, conducting legal research, and drafting legal documents.

American Bar Association (ABA) Approved Program: To remain ABA-approved, students must comply and complete ABA-approved [Paralegal general education](#). **The ABA stresses that Paralegals may not provide legal services directly with the public except as permitted by law.**

College of the Canyons does not accept legal specialty courses from a school that is not ABA approved or accredited by a College of the Canyons approved accrediting body. College of the Canyons limits the transfer of legal specialty units (i.e., Paralegal courses) to 12.0 semester units from an ABA approved program or 9.0 semester units from a non-ABA approved program. The limits stated above are for substitution of paralegal courses. Therefore, it is likely that if you have taken many paralegal courses at another institution, you will be limited on the number of courses that transfer and substitute for paralegal courses. In addition, the courses transferring will be examined for rigor, subject matter, delivery modality (lecture, hybrid, etc.), and topics covered by assignments and/or projects. Merely having the same course name is insufficient. Potential students are encouraged to meet with the department chair prior to attending so that transfer credits can be discussed and course planning can occur.

Per ABA Guidelines, all students are required to take at least 9 semester credits of legal specialty (i.e., Paralegal courses) through traditional classroom instruction.

Program SLO: Students will be able to demonstrate proficiency in the core skills and knowledge required for employment as a paralegal.

Important Transfer Information: *The sequence listed below meets requirements for the AA degree.
