

Geology AS-T (IGETC GE Track)

+If you have completed coursework at another college and/or are starting in a semester other than a Fall term, please follow up with the Counseling Department to determine if this sequence is appropriate for your academic and career goals.

Program Description: Geology is the science that studies the earth, the earth's formation, composition, and the processes that create resources. The Geology program provides insight, perspective, and application required to assist citizens in making well-informed decisions concerning earth-related issues such as water, resources, building and engineering, natural disasters, agriculture and ocean resources, and the long-term effects on our planet from an increasing population. [The Student Transfer Achievement Reform Act \(SB 1440\)](#)

Program SLO: Synthesize information from a variety of sources and disciplines in order to solve geologic problems.

Important Transfer Information: The sequence listed below, may not meet all your transfer admissions requirements. Connect with a counselor to develop an individual student education plan through the Counseling Department @ <https://www.canyons.edu/counseling> or (661) 362-3288/(661) 362-3811.
