

# How to Enable Wi-fi Calling on Android Devices

**\*\*This feature is available on most new android phones and operating systems. If you do not see the settings below contact your provider for more information\*\***

**Step 1:** Open the **SETTINGS** menu on your android device and select the **MORE SETTINGS** option underneath wireless and network field.

**Step 2:** Find the **Wi-Fi Calling** option and move the slider to the **ON** position (as designated by the green slider).
