

# Enable Wifi Calling on IOS

**\*This feature is only available to Iphone 6 or newer models and require IOS 9.0 or higher\***

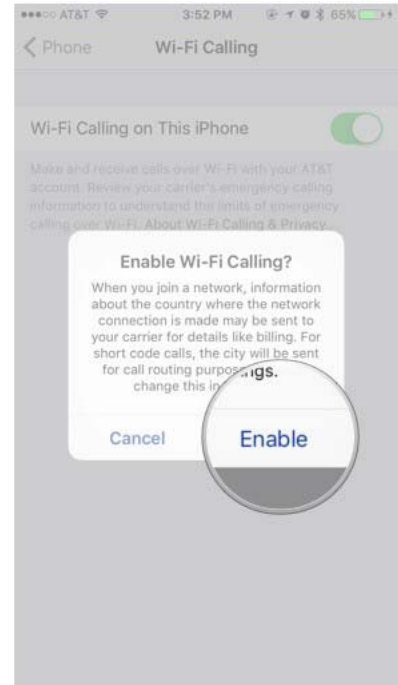

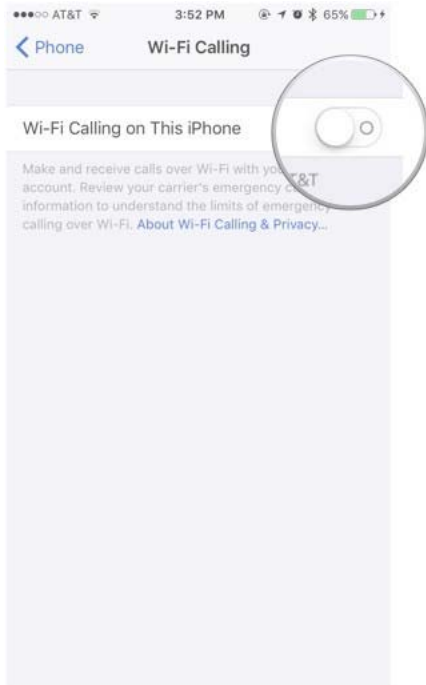

**Step 1:** Navigate to the **SETTINGS** application on your iphone and select **PHONE**.

**Step 2:** Within **PHONE** settings select **WI-FI Calling**

**Step 3:** Switch the slider to the **ON** position (as designated by a green slider)

**Step 4:** A warning about location data being transmitted will appear, select **ENABLE** to finish the set up.
