Regarding "The Barriers to Basic Needs" funding portion of the recent Block Grant: Can the associated funds/services be utilized by all students, including International and DACA students, or, are there specific restrictions in place, as was the case in the first round of CARES? If there are restrictions, do they change when spending the State or Federal funded portions of the grant? Thank You!	Michael Monsour	michael.monsour@canyons.edu	There is a State Chancellor's Office Budget Workshop tomorrow where additional information will be shared regarding the COVID Block Grant funding requirements/restrictions.	I do not believe there will be restrictions on the block grant funding, however, this is a good question that will need to be investigated (thanks for the extra work). As you recall, a court ruling eliminated the original restrictions. My expectation is that ruling will apply to this funding as well.
Thanks Jim!	Elizabeth Shaker	liz.shaker@canyons.edu	You are welcome, Liz. Great question.
