

College to Career Connection History

What is History?

History is the systematic collection of evidence from the past, combined with reasoned interpretation of it, to make evaluations of the human story from beginning to the present. In a broad sense, history is the study and record of all human experience. It examines people, institutions, ideas and events through the past, develops cultural literacy, critical thinking and other useful skills while helping to plan for the future. By having knowledge of the origins and people of the past students are able to obtain a better understanding of individuals and the society. History provides a solid fundamental preparation for careers in business, industry, government and education. It also serves as a preparation for law school, foreign service, international work, urban affairs, and library science.

[COC - History Associate in Arts](#)- will not transfer to a 4 year university

[COC - History Associate in Arts for Transfer](#)

Potential Industries/Employers

- College/Universities
- K-12 Institutions
