

PROGRAM OF STUDY

Electrical Technology Certificate of Achievement

The Electrical Technology Certificate of Achievement is designed to prepare students for entry-level positions in an electrical technology related trade. The curriculum incorporates courses in skills application, trades math, print reading, and building codes. The Electrical Technology Certificate of Achievement stacks upon the Certificate of Specialization.

Student Learning Outcome:

Students will apply basic skills and knowledge required for employment in an electrical technology related trade.

Program Requirements:

		Units
CONST 020	Electrical Technology I	2
CONST 022	Electrical Technology II	2
MFGT 090	Measurements and Computations	3
CONST 101	Introduction to Construction and Construction Engineering	2
CONST 103	Blueprint Reading for Construction	3
CONST 109	California Building Code	3
CONST 124	California Electrical Code	3

Total Units	18
