

PROGRAM OF STUDY

Graphic & Multimedia Design - Multimedia Associate in Arts

The primary goal of the Graphic and Multimedia Design degree with emphasis in multimedia is to provide students with a foundation of knowledge and technical abilities required of a multimedia position. Elective courses provide preparedness to specific industry requirements. All courses are sequenced to facilitate transferability to an art or design program at a four-year university. Along with the transferability aspect of this program, the associate degree in Graphic and Multimedia Design with an emphasis in multimedia will also provide students with a set of basic skills and competencies.

Student Learning Outcome:

Demonstrate proficiency in the core skills and knowledge required for employment in a multimedia position.
