

BEST PRACTICES

Starting a Quiz in Canvas with LockDown Browser: Instructions for Students

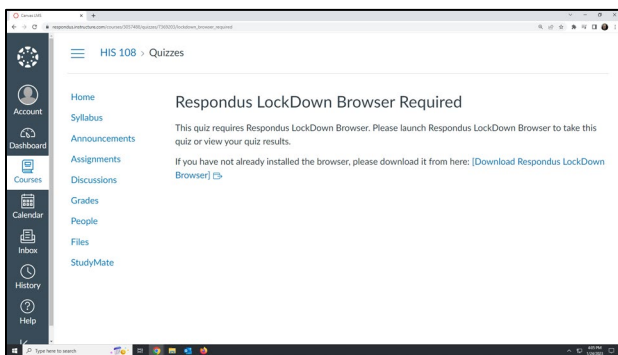

Download Instructions (one-time step)

- Select a quiz from the course that requires LockDown Browser
- Select the link to download the application and follow the installation instructions

Starting a Quiz (Windows, Mac, iPad)

Classic Quizzes

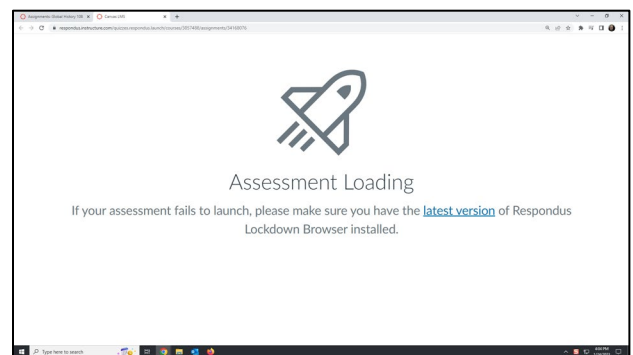

If the download instructions look like this:

1. Exit the standard browser
2. Open the LockDown Browser application
3. Log into to Canvas and navigate to the quiz

New Quizzes

If the download instructions look like this:

1. Return to the course in a standard browser
2. Select the quiz
3. LockDown Browser will automatically launch

Starting a Quiz (Chromebook)

- After installing the LockDown Browser Extension for Chromebook, go back to the course
- Select the quiz
- LockDown Browser will launch automatically
